TECHNICAL SKILLS & QUALIFICATIONS

- **Engineering Software:** 3D printers, Material Testing system (Pasco), and MATLAB
- **Engineering Software Certifications:** CSWA (Certified SolidWorks Associate)
- **Laboratory Skills:** Material Testing and 3D printing/assembly
- **Personal Attributes:** Collaborate well with peers to complete tasks at hand from start to finish and enjoy working through complex problems to find effective and efficient solutions

EDUCATION

Bachelor of Science, Mechanical Engineering — Expected Graduation: June 2027
Seattle Pacific University, Seattle, WA
Overall GPA: 3.93

Associates of Science and Associates of Engineering — Graduated: May 2022
Coastal Carolina Community College, Jacksonville, NC *Overall GPA: 3.9*

ACADEMIC PROJECTS

Designing a prosthetics attachment

- Modeled and assembled a custom protistic attachment to allow the patient to hold and fire a bow and arrow using SolidWorks
- 3D printed a functional prototype to present to my professor and classmates

Materials Testing

- Conducted tensile testing on steel to determine key mechanical properties including Young's Modulus, Yield Strength, Ultimate Strength, and Fracture Location
- Utilized Pasco software for data collection and analysis to effectively find and visualize all needed data
- Documented procedures and results in compliance with laboratory standards, demonstrating meticulous attention to detail and technical writing ability

Automatic Pill Dispenser

- Worked on a team consisting of other Engineering students in different concentrations to create a working prototype of an automatic pill dispenser
- Personal responsibility: model and assemble pill canisters with 3 custom sizes to dispense medication accurately without jamming

WORK EXPERIENCE

Special Medical Staffing, Seattle, WA
Certified Pharmacy Technician Outpatient — September 2024 - Present

- Accurately fill an average of 200+ prescriptions daily
- Answering phone calls, managing patient data, and assist pharmacist with tasks
- Non-sterile compounding of oral medications

Ascension, Rochester Hills, MI
Certified Pharmacy Technician Inpatient — November 2023 – September 2024

- Answering phone calls, filling scripts, filling 24-hour pyxis, assist pharmacist with tasks
- Non-sterile compounding of oral medications
- Sterile compounding of intravenous medications in a sterile environment
- Sterile compounding of hazardous and chemotherapy intravenous medication using a closed system
- Maintained 100% compliance with safety and quality control standards

USMC Marine and Family Programs, Jacksonville, NC
Program Technician at Stone Street Youth Pavilion — May 2022 – September 2023

- Keep Children safe, fed, and entertained throughout the day
- Help maintain the cleanliness of the building
- Adhere to security and safety protocols always aligning with the USMC standards
